Dear Sir,

As I have received your request mail to give the appreciation note - in that context-We can say,

We are satisfied with your Valuable products, like Bearings, Teconite Seals , O-rings and Bearing Housings & other accessories etc. which are delivered to us and We appreciate the SKF Quality products and services and also for the quick response given to us time to time in urgency.

For sales and promotions - contour, you are also educating the power industry people and product users and enhancing the better quality education and training in the bearing field , time to time from your facilities and you have given us the specialized trainings on the Material handling equipments bearing & its applications which was very fruitful and informative to our Subordinates on 9th Feb 2013.

We can Recommend, to all concerned to take your products because Quality is not compromised as I have seen since 1987 in power industry .You have shown your all products at apl through the mobile van and demonstrated all the industrial technical solution to the Power Plant Engineers in 2012 regarding bearings and condition monitoring products . **I had visited in 2006 the SKF factory at Chinchwad- Pune and seen all the Bearing Manufacturing Processes and Six Sigma standard was followed there .**

Dear M/s. Kundan Industrial product & services-

You have given following services in APL -Mundra at CHP.

1-Frequent Leakages in the S/R ph-2 stopped and life enhanced by using the SKF - O-ring & Seals.

2-Seals in the crusher, done the good sealing and dust ingresson prevented and bearing life got enhanced.

3-You have done, tremendous efforts for spares providing to us, was the excellent work in the context of seal ring in ph-3 crusher in 2011 .Your quick response was amazing.Within 48 hrs you had arranged it. Indeed, it was very exemplary contribution for us by you to restore the CHP-Crusher .

kindly share your specialized material handling presentation ppt for the awareness purpose TROUGH THE REPLY MAIL .

Thanks
